The following is an examiner's statement of reasons for allowance:

The prior art of record, either alone or in combination, fails to anticipate or render obvious the herein claimed dispersant and cement containing the same. The restriction requirement and species requirement is hereby withdrawn. All presented claims require a sulfonic acid group- monomer component (Formula (5)) as part of the cement material, and the "X" component of the monomer now present in all claims is not taught by the prior art of record. This component is also not present in application SN 10/469,141, so the obviousness-type double-patenting rejection over that copending application is also hereby withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
